

Nabeeha Khurshid

London, CR7 6HJ | 07864700009

nabeehak@icloud.com | portfolio: <https://noobella.github.io/>

A passionate, self-driven Computer Science graduate with a strong technical background and experience in Java and Spring Boot development seeking a full-time role as a graduate software engineer. Strong work ethic in team and individual settings, and a penchant for problem solving. Driven by a need to grow, innovate and succeed, and is constantly challenging herself to learn and develop new skills.

EDUCATION

Bachelor of Science (B.S.) - Computer Science

Sep 2019 - Jun 2022

Royal Holloway University, London

- Grade: First Class Honours
- Dissertation in Advanced Web Development - Full stack development using Django (Python), SQLite and Bootstrap framework
- Object Oriented Programming - Java
- Software Design - UML diagrams, use cases, design patterns
- Algorithms and Data Structures - searching/sorting algorithms
- User-centred Design - design principles and user heuristics

A Levels - Computer Science, Mathematics, Economics

Sep 2017 - Jun 2019

Coloma Convent Girls' School, London

- Grades: AAA

EXPERIENCE

Software Engineer Pioneer

Jan 2023 - Apr 2023

Albany Beck, London

- Worked on multiple Java based projects using Spring Boot and Java Web Technologies (Servlet and JSP) with a TDD approach
- Demonstrated leadership skills by acting as team leader for a group project following agile principles and managing team resources to deliver on sprint goals within expected timeframes

Computer Science Teaching Assistant

Oct 2021 - Apr 2022

Royal Holloway University, London

- Established positive relationships with students, leading by example and responding appropriately to classroom needs
- Helped students master core programming concepts through one-to-one and small group tutoring

Tech Internship Experience

Jun 2020 - Jun 2020

Bright Network, Online

- Evaluated project requirements, identified challenges and proposed alternatives using research and data
- Planned user stories, design sprints, identified team roles and key stakeholders for a given project brief

SKILLS

Java, Spring Boot (MVC, RESTful API, JDBC), SQL, Git, Maven, JUnit and Mock Libraries, Agile, Jira and Confluence

PROJECTS

Trading Application

A full stack Java application for an online trading platform

- Users can create buy or sell orders on fictional stocks
- Implements a trading algorithm to find the best match on an order
- Uses: Spring Boot, Spring JPA, Spring Security, Eureka Microservices, Bootstrap and Thymeleaf
